### A GREAT CONFLAGRATION

LIGHTNING STRIKES AN OIL WELL  
AT LIMA, OHIO.

The Fire Communicates to the Tanks  
and Thousands of Barrels of Oil Are  
Consumed—The City in Danger—Terrible  
Hailstorm in Indiana and Wisconsin—  
Other Disasters.

LIMA, Ohio, Sept. 24.—Callahan & Mall  
son's oil well No. 1 was struck by lightning  
at 7 o'clock Thursday morning, and a great  
conflagration burst forth at once. The fire  
consumed at least 200 barrels of oil, which  
traveled and the oil spread over the southern  
part of the city, endangering thousands of  
dollars worth of property. Nicholas's large  
tank, across the street from Callahan & Mall  
son's, was also struck, and 2,400 barrels of  
oil was consumed. The whole fire depart-  
ment was summoned, and responded  
promptly, but little could be done toward  
checking the progress of the flames. The  
conflagration continued until about 10 o'clock,  
when the city was threatened with  
destruction.

Mrs. Henderson, who was standing in the  
doorway of her home near the well that  
was struck, was struck by a third bolt and  
killed.

At Bluffton the Eastern & Western Nar-  
row Gauge railway depot was struck by  
lightning and totally destroyed. At Beaver  
Dam the Lake Erie & Western depot was  
totally destroyed. At Spencerville Charles  
Boover's barn was destroyed, and many  
barns and outbuildings are reported destroyed  
in the vicinity of Lima.

CHICAGO, Sept. 24.—A dispatch received  
here at noon said: The conflagration was still  
raging and spreading in all directions. It  
was beyond the power of the fire department  
to check its progress. Blazing oil was burn-  
ing in all directions. It was thought the fire  
would burn itself out without doing very  
much more damage.

CINCINNATI, Sept. 24.—The telegraph wires  
connecting Lima, Ohio, with the city are  
down, and particulars of the disaster there  
reported to be racing there are difficult and  
almost impossible to obtain. Nothing is  
known as to details of the disaster.

### TERRIFIC HAILSTORM

Much Damage Reported from Indiana  
and Wisconsin.

SOUTH BEND, Ind., Sept. 24.—A terrific  
hailstorm passed over the city Wednesday  
afternoon doing immense damage. Some of  
the stones were as large as hen's eggs. Large  
plate glass windows suffered equally with  
common glass. Telephone wires were broken  
at the fair grounds, where there were several  
thousand people, and hundreds of stings and  
donkeys were killed. There was a severe storm  
of rain and hail from their farmhouses  
and ran in all directions, upsetting vehicles,  
running against each other and over people,  
injuring many, and one, it is reported, fat-  
ally.

MADISON, Wis., Sept. 24.—The severest  
hailstorm ever experienced in the city  
occurred here at 2 o'clock Thursday morning.  
The storm was accompanied by heavy thun-  
der and lightning. Hail stones fell five  
inches in circumference, and all of them  
were very large, and every sky light in the  
city was smashed. Shelled the green house  
man had 4,000 windows broken in his green-  
house. No serious damage, except as above,  
to trees and late crops.

### Terrible Explosion Reported.

SAN FRANCISCO, Sept. 24.—A report has  
just reached this city that a terrible explosion  
had occurred at the grand powder works near  
West Berkeley. No particulars have been re-  
ceived yet.

LASTLY.—The explosion is not as serious as  
first reported. One hundred pounds of nitro-  
gen and nitroglycerine exploded at the  
Grand Powder works. Two Chinamen were  
killed. But slight damage was done to the  
property.

### Bad Fire at Shelbyville, Ill.

SHREVEPORT, Ill., Sept. 24.—Fire broke  
out in this city at 2 o'clock Thursday morn-  
ing and for an hour raged furiously. The  
flames were under great headway when the  
firemen appeared on the scene, and for some  
time it looked as though the business part of  
Shelbyville was doomed. After a hard fight,  
however, the conflagration was put under  
control. A number of business houses are in  
ruins. The loss is heavy.

### Nation Escape from a Holocaust.

DEARBY, Mass., Sept. 24.—At 1 o'clock  
Thursday morning, J. G. Winchester &  
sons, private watchmen, discovered that a  
large three-story non-resident boarding house  
on Main street was on fire. Forty of the in-  
mates were aroused and extinguished the  
flames. It was found that a lot of combustibles  
had been piled up in the cellar and first  
floor.

### A Rattlesnake Abandons Her Husband.

NEWPORT, R. I., Sept. 24.—Baroness  
Adolph B. had deserted her husband and  
sailed for Bremen on the steamer Elber.  
She had a good time, but her husband was  
a stock farm in the west. Afterward he  
started a saloon here, but the prohibition law  
killed that. While he was gone to New York  
to look up a store his wife, who comes from a  
good family in Germany, saw there was an  
opportunity to escape her husband's cruel  
treatment and left. Her father had sent her  
money a few years ago to come home on, but  
Schade would not allow her to go. Schade's  
son said no woman could live with his father.

Samuel Herman and Louis Nothman. The

### AT HOME AGAIN.

Arrival of the President and Wife at the  
Executive Mansion.

WASHINGTON, Sept. 24.—The execu-  
tive mansion had resumed its customary ap-  
pearance Thursday morning when the first  
group of visitors arrived. The doorkeepers  
and attendants were in their customary  
places and all about the place there were in-  
dications that the chief executive was at  
home. Col. Lamont was at his desk early,  
looking remarkably well, and much improved  
by a month's rest and recreation. He had no  
news to communicate, except that the presi-  
dent, coming back in excellent health and  
spirits, was ready to resume his old hours for  
the transaction of business, reception of vi-  
sitors, etc., and to take up his work where he  
had dropped it a month ago. Col. Lamont  
knew of no appointments agreed upon in the  
west.

President Cleveland rose early and spent  
an hour or more in the library before break-  
fast looking over letters. After breakfast he  
received Gen. Drum and Marshal Wilson,  
and then gave it to be understood that the  
regular Thursday cabinet meeting would not  
be held, and that he would not be at home to  
visitors. At 9 a. m. the seal of the president  
and the ladies were ordered out for duty, and a  
little later the president, Mrs. Cleveland, and  
Mrs. Folson were driven to Pleasant Prospect,  
the president's new country home, where the  
work of reconstruction and renovation was  
examined critically, after which the drive  
was resumed.

The president gained no positive or definite  
information in his interview with Secretary  
Manning of that gentleman's intentions, but  
it is understood that the secretary assured  
the president he would endeavor to return to  
his post of duty some time in October, and  
if his health and strength permits, remain at  
the head of the department indefinitely.

### A BRUTAL MURDER.

Two Men, One of Them Blind, Kill an  
Ohio Saloonkeeper.

CLEVELAND, Ohio, Sept. 24.—The coron-  
er's inquest in the murder case at McMore,  
Ohio, developed the fact that Lewis C. Ledy,  
the saloonkeeper, was murdered by Charles  
Graham and Nathaniel E. Ledy. The men  
entered Ledy's saloon Monday morning and  
asked for some whisky. Ledy refused to  
sell to them because their wives had re-  
quested him not to do so. The men then left  
the saloon, returned again in a few minutes  
armed with stones. The quarrel was re-  
newed and E. Ledy struck Ledy on the  
head with one of the missiles, fracturing his  
skull. The parties then jumped upon their  
victim and beat and kicked him in a most  
brutal manner until life was extinct. Games  
in some respects a remarkable personage.  
When but 17 years old he was attacked by a  
dog, losing both eyes and being horribly dis-  
figured. Notwithstanding his blindness, he  
can travel unassisted to any point in this  
vicinity. He is also able to locate the exact  
position of any object or person near him by  
the sound waves from crumpling his fingers  
and he is an expert violinist. The murders  
are both in jail at Tiffin.

### Old Fellows Enjoying Themselves.

BOSTON, Sept. 24.—Bunker Hill Lodge No.  
14, I. O. O. F., of the Charlestown district,

Lodge, of Providence, and a large number of  
distinguished Odd Fellows at a banquet at  
Monument hall, Wednesday evening. About  
400 were present, including the sovereign  
grand and past grand and many other dig-  
nities of the order. Chief Marshal Foster  
gave at the Crawford house Wednesday even-  
ing a banquet to the sixty gentlemen com-  
prising the honorary staff, division marshals  
and aides in Wednesday's grand procession.  
The chief marshal was surprised with a  
magnificent silver tray, on which was a silver  
toss, in all eight pieces, a silver water set,  
five pieces, two silver candleholders, a silver  
fruit set, two pens, as a testimonial from his  
guests for their appreciation of his services  
during the day. Bethesda Lodge, of South  
Boston, entertained its guests, the Crescent  
Lodge, of Providence, at Wain's hall. Covers  
were laid for 300.

### Assaulted a Fellow Prisoner.

PRINCETON, Pa., Sept. 24.—Miles Weston,  
the Chicago capitalist who is serving a term  
for involuntary manslaughter, has charge of  
the main department in the western peniten-  
tiary. James Kane, another convict, is em-  
ployed there as a workman. Wednesday  
Weston expressed dissatisfaction at the man-  
ner in which some of Kane's work was done,  
whereupon Kane picked up a piece of iron  
and made a vicious attack upon Weston,  
striking him several times upon the head and  
body. Another prisoner rushed upon Kane,  
overpowered and disarmed him, thus prob-  
ably saving Weston's life. The latter was  
severely but not dangerously injured.

### Killed with a Sugar Bowl.

PRINCETON, N. J., Sept. 24.—News was re-  
ceived here Wednesday that a terrible murder  
was committed Tuesday evening at Kingston.  
The victim was James Keegan. It is sup-  
posed that Keegan was murdered by his wife  
after he had sat down to supper, the crime  
being the result of a quarrel. His dead body  
was found in a chair at the table. A knife  
and fork were still in his hands. There was  
a frightful gash in his head, and the frag-  
ments of a heavy sugar bowl were scattered  
over the floor near the chair in which the  
murdered man sat.

and driven away but the carriage was nearly  
ruined by stones and eggs. Burns and Kelly  
of the Chicago also had a tussle with the  
mob and received some severe bruises.
